Every Star Is Different

*Cheerfully* \( \frac{j}{j} = 66-76 

1. Ev'ry star is dif-f'rent, And so is ev'ry child.
2. I can shine for oth-ers And let them feel my love,

Some are bright and hap-py, And some are meek and mild.
Fol-low the com-mand-ments That come from God a-bove.

Ev'ry one is need-ed For just what he can do.
I can help an-oth-er To learn to choose the right.
You're the only person who ever can be you. Having faith and courage will let my star shine brightly.

Not so very far, shining brightly;

Be a shining star. Shine so brightly; Shine right where you are, brightly!
